Ida:

Atlantic Research Corporation site, located in East Camden, Arkansas is a RCRA site and is listed in Envirofacts and Versatile. However, it is listed in SDMS with two documents and is also listed in Versatile as mostly RCRA files but does show 1 SA file. This site is not listed in the CERCLIS database. Could we please notify the appropriate person to have this site included in CERCLIS? We have had two requests

for this site.

Thank you!
